

BRYAN LGH TO OPEN NEW FACILITY WITH CSI SOFTWARE

LifePointe facility to bring innovative health care to community

Houston, TX - July 5, 2006 CSI Software announced today that Bryan LGH has chosen Spectrum by CSI Software as its management software system for its new LifePointe center.

LifePointe, an 80,000 sq. ft., \$15 million facility, represents a progressive approach to helping people improve overall health and quality of life, and reach recovery goals. For more information on LifePointe, logon to [LifePointe](#)
