EMH CENTER FOR HEALTH & FITNESS SELECTS CSI SOFTWARE

6 of the Top 10 Wellness Centers Now Using CSI Software

Houston, TX - December 12, 2007 CSI Software, a leading provider of software and services for wellness centers, announced today that the EMH Center for Health & Fitness in Avon, OH has selected SpectrumNG from CSI Software as its new enterprise management software system.

The EMH Center for Health & Fitness is a 60,000 square-foot facility and is the premier medically based health and fitness facility in Northeast Ohio. EMH will be replacing its legacy system with SpectrumNG and is planning a spring implementation. For more information on EMH, logon to www.emh-healthcare.org
