

## MILLENNIUM SELECTS CSI SOFTWARE

**Houston, Texas - December 14, 2006** CSI Software, a leading provider of software and services for health and fitness clubs, today announced that Millennium Partners Sports Club Management has selected Spectrum NG by CSI Software as its new enterprise management software system. Millennium recently acquired six of The Sports Club Company's luxury sports clubs. The properties are located in Boston, New York (Upper East Side), New York (Reebok Sports Club), Miami, San Francisco and Washington DC.

### Architecture Matters

"Our goal at Millennium Partners Sports Club Management was to select an enterprise management software system that would help us increase our membership levels, improve our member satisfaction, grow our non-dues revenues, and provide us with world class analytic capabilities" says Henry Svendblad, Vice President of Information Technology. "Additionally, the system also had to be easy to use, manage, and support. Essentially we wanted a system that would provide a very solid foundation for future growth".

"After a very lengthy selection process, CSI's Spectrum NG with its Microsoft .Net architecture, integration with SQL Analysis Services, and rich feature set proved to be the only solution that met, and in fact, exceeded our requirements. We are looking forward to a long and prosperous partnership with CSI."

### Quick ROI

"We are pleased that Millennium has selected Spectrum NG to replace its proprietary system" says Andy Wigderson, Vice President of Sales and Marketing for CSI Software. "We demonstrated that we can deliver sophisticated capabilities and leading edge technology, with a low total cost of ownership. By the second of half of next year, we expect the entire system to be operational enabling Millennium to begin reaping the benefits and value from their investment".

### About CSI Software

CSI Software provides integrated software solutions to health and fitness clubs, campus recreation centers, wellness centers, JCC/YMCA/YWCA organizations and parks and recreation centers. Founded in 1977, CSI Software is a private company based in Houston, TX. For more information, please logon to [www.csisoftwareusa.com](http://www.csisoftwareusa.com)
