

THE ATLANTIC CLUB CHOOSES CSI SOFTWARE

Facilities to go live this summer

Houston, TX - March 15, 2006 CSI Software announced today that The Atlantic Club has chosen Spectrum by CSI Software as its new management software system. The Atlantic Clubs selected Spectrum because of its integration, product roadmap and breadth of modules.

The Atlantic Club plans to implement Spectrum over the summer. The new software will provide The Atlantic Club with a fully integrated, single source solution and technology that will move it into the 21st century .

Perfect Fit

"The Atlantic Clubs business model is exactly what our software does best" says Andy Wigderson, Director of Sales and Marketing at CSI Software. "The more things a facility does, such as tennis/racquet sports, personal training, facility rentals, program registration, retail, Spa, etc., the more value CSI Software can add to their business".

About The Atlantic Club

The Atlantic Club operates two facilities in New Jersey and provide a full spectrum of programs, activities and workshops that meet and exceeds the health, educational and recreational needs of their members and the community.
