

THE McCONNELL HEART HEALTH CENTER CHOOSES CSI SOFTWARE 100,000 sq. ft. facility to go live this summer

Houston, TX - April 11, 2006 CSI Software announced today that The McConnell Heart Health Center has chosen Spectrum by CSI Software as its new management software system. The facility selected Spectrum because of its integration, advanced technology and customer references.

The McConnell Heart Health Center plans to implement Spectrum over the summer. The new software will provide The McConnell Heart Health Center with a fully integrated, single source solution.

About The McConnell Health Heart Center

The McConnell Heart Health Center is part of Ohio Health and believes that building a healthy life goes beyond physical activity, wellness education or even medical intervention.
