

## THE HOUSTONIAN BECOMES A CUSTOMER

**Houston, TX June 2, 2008** CSI Software, a leading provider of software and services for health and fitness clubs, announced today that The Houstonian Club has chosen Spectrum NG by CSI Software as its new club management software system. A fall implementation is being planned.

"The Houstonian is one of the most unique and prestigious facilities in the country" says Jonathan Ross, President and CEO, CSI Software. "We are pleased to partner with the Houstonian in providing a solution that will help sustain its outstanding record of success and support its continued growth."

### INTEGRATION CRUCIAL TO SUCCESS

The Houstonian's previous system was not fully integrated, was difficult to use, and lacked the full range of modules needed. With CSI Software's solution, The Houstonian will be able to improve ease of use and enhance both information sharing and reporting across multiple departments while improving overall data integrity.

The Houstonian will also be leveraging CSI Software's [state-of-the-art API's](#) with the Micros F&B System and the Fidelio Property Management System.

"The Houstonian Club is on a campus with a four-star, 288 room hotel" says Andy Wigderson, Vice President Sales and Marketing CSI Software. "Our API with Fidelio will allow look-ups of guests of the hotel trying to access the facility and also allow guests to charge items back to their room folios, real-time."

### About The Houstonian Club

The Houstonian Club is a 125,000 square foot health and fitness facility located adjacent to The Houstonian Hotel and Trellis, The Spa at The Houstonian. It is open to Houstonian Club Members, their guests and guests of The Houstonian Hotel. For more information, logon to [The Houstonian Club](#)
