

## UIC SELECTS CSI SOFTWARE AS ITS NEW RECREATION MANAGEMENT SOFTWARE

Houston, TX - April 19, 2006 CSI Software, the leading provider of software and services for campus recreation centers, announced today that the University of Illinois Chicago has selected Spectrum by CSI Software as its new recreation management software. UIC will be implementing Spectrum at its brand-new student recreation facility.

Scheduled to open in early 2006, the facility will provide approximately 152,000 sq. ft. of active and passive recreation space. It is part of a \$45 million dollar recreation initiative that includes construction of the Student Recreation Facility and the renovation and an addition to the Sport & Fitness Center on west campus. Work on the Sport & Fitness Center is complete and the facility is open for business.
