JEWISH COMMUNITY CENTRE**

"We have been using a DOS based product for the past 10 years and have been very unhappy with its functionality and poor reporting capabilities" says Al Shpeller, Director of Finance and Administration.

"After conducting a significant amount of research, including interviews with our competitors, our current database supplier, reading the JCCA materials, several IT consultants, and speaking with other Spectrum users, we are very confident we are making the right decision" says Shpeller.

"Rady JCC believes Spectrum will be able to provide us with greater efficiencies in terms of staff time and operating costs. As well we look forward to taking advantage of Spectrum's excellent reporting capabilities".
