### Thunderbird Resorts Selects CSI Software

**Houston, TX 10-31-08**

Thunderbird Resorts has selected Spectrum NG by CSI Software as its new enterprise software system for a number of its hotel and fitness resorts.

Thunderbird Resorts is based in Panama City, Panama, and operates hotels and casinos throughout the world

Spectrum NG is being implemented initially at the Cortright Concept in Lima, Peru, adjacent to the Las Americas Suites and Casino.

Thunderbird Resorts will be deploying all of the Spectrum NG core modules plus Spa Management and Scheduler.

Thunderbird Resorts will be also deploying the CSI Software PMS API which will allow guests of the hotel to charge services back to their hotel room.

#### Supporting Quotes

"The hotel and fitness resort space is a rapidly growing vertical market for us" says Andy Wigderson, Vice President Sales and Marketing at CSI Software. "Our full-range of modules plus our API's with various Property Management Systems and full-service F&B systems have allowed us to become a leader in this emerging segment and that is one of the reasons Thunderbird Resorts selected us".

#### About Thunderbird Resorts

Since its start in Guatemala in 1997, Thunderbird has grown through development of new properties, expansions, and acquisitions. Thunderbird Resorts is focused on being the most successful recreational property developer and operator in each of its markets by creating genuine value for the community, its employees, and shareholders. Thunderbird Resorts is now one of the fastest growing gaming and leisure companies in the world. For more information, logon to [www.thunderbirdresorts.com](http://www.thunderbirdresorts.com)
